

POSITION TITLE:	Project Trainee
LOCATION:	IDP Education, Digital Campus, Chennai.
ELIGIBILITY:	B.Tech/B.E (IT, CSE, ECE, CT, IS, CS&BS)
INTERNSHIP TENURE:	6 Months [1.5 Months Mentorship + 4.5 Months Project Support]

ABOUT IDP EDUCATION:

Being the global leader in international education services, for more than 50 years IDP has been the pioneer in this sector, specializing in combining human expertise with leading technology to help people reach their global ambitions. Operating in more than 50 countries around the world, IDP values and celebrates diversity, fostering a safe and inclusive workplace.

IDP Education Ltd is the proud co-owner of IELTS (International English Language Testing System), the world's most popular high stakes English language proficiency test.

If you share our passion in helping people to pursue their dreams through education and thrive in an innovative agile digital culture then come and join our Digital Campus Engineering Teams and own end-to-end features used by 200,000+ students and counsellors globally.

POSITION PURPOSES

You will be part of the design, development, testing, and maintenance of high-quality software solutions across our digital platforms. Your role will involve a blend of **front-end** and **back-end development**, working with cutting-edge technologies, and contributing to the continuous improvement of our software development processes.

You'll be working closely with designers, Business Analysts, Product Owners, stakeholders, and other developers to bring our digital adoption initiatives to life and contribute to the evolution of IDP's software landscape.

RESPONSIBILITIES

- Support in the design, development, and testing of software solutions across IDP's digital platforms.

- Write clean, testable, and efficient code
- Utilize frameworks/libraries like Next.js/Angular, Ionic, React and AWS Services.
- Create and maintain automated tests (unit, integration, end-to-end, AI agent frameworks, LLM Agents)
- Collaborate with other engineers and managers to meet project goals.
- Participate in code reviews, design discussions, and sprint planning sessions.
- Effectively communicate technical concepts to both technical and non-technical audiences.
- Support the implementation and maintenance of digital adoption platforms
- Maintain documentation and reports for various BAU activities
- Support the implementation of process improvements and best practices
- Learn and apply safety standards and regulations in engineering projects

YOUR 1.5-MONTH LEARNING & MENTORSHIP ROADMAP

- **Expert-led mentorship** covering Technical mastery, Professional excellence and Leadership foundations.
- **Self-paced learning** aligned to SFIA competencies via learning platforms.
- **Collaborative workshops** with Architecture, Platform, Infrastructure, Data Engineering, and Quality Engineering teams to build system-level awareness.
- **Agile immersion:** Agile-ready with the confidence and capability built through expert coaching

CERTIFICATION	Yes, Internship Completion Certificate will be provided on successful internship completion
STIPEND	Not Applicable
EMPLOYMENT CONVERSION	Performance based conversion aligned with business requirements.

WORKING AT IDP

IDP Education's ongoing success comes from our highly committed and caring employees around the globe. We encourage teamwork in order to leverage our people's diverse talents and expertise through effective collaboration and cooperation throughout our business.

We strive to provide a working environment where people are encouraged to excel, be creative and seek new ways to solve problems, take initiative, generate opportunities and be accountable for their actions.

We believe in developing dynamic, inclusive work places that encourage and celebrate cultural differences and views, and provide opportunities for personal, professional and career development all around the world. We respect diversity in our people: their ideas, work styles and perspectives as well as offering flexibility to ensure employees enjoy a satisfying balance of work and personal life.
